

## EIROforum TT Conference

### Technology Transfer and the European Research Area

18–19 November 2009, EMBL Heidelberg

Intellectual property, technology and knowledge transfer are an integral part of the R&D activities and missions of the EIROforum organisations. In this two-day conference, the EIROforum partners will present their approaches to Technology Transfer and show how these activities contribute to the development of the European Research Area.

Providing a platform to exchange new ideas, experience and good practice, the meeting will offer an open discussion forum to representatives of research communities, politicians, industry representatives, the governments of the EU and more.

## Programme

Wednesday, 18 November

EIROforum Introductory session

Working session 1: Setting up effective collaborations and partnerships

Working session 2: IP management – from policy drafting to implementation

Working session 3: Technology Transfer infrastructure and tools

Conference Dinner

Thursday, 19 November

Networking breakfast

Working session 4: Financing Technology Transfer – bridging the gap

Final session

Conclusion of the conference

Nigel Clarke, Marc Cuzin, Jacques Darcy, Diego De Biasio, Jörn Erselius, Peter Fletcher, Werner Frohling, Stefan Herr, Martti af Heurlin, Massimo Introzzi, Jeanne Jordanov, Iain Mattaj, Thomas Meyer, Laurent Miéville, Antonio Parada, Cecile Tharaud, Patrick Van Eecke.

## Contact

More details are available online at [www.embl.de/conferences/TTC09](http://www.embl.de/conferences/TTC09). Please contact EMBL's Course and Conference Office at [conferences@embl.de](mailto:conferences@embl.de) with any queries.

## Sponsors

Supported by the European Commission (FP7-ERARESORG-2007-RTD).

EIROforum is a collaboration between seven European intergovernmental scientific research organisations to pursue joint initiatives, combine resources, and share best practices.

The seven EIROforum members are:

- European Organization for Nuclear Research (CERN)
- European Fusion Development Agreement (EFDA)
- European Molecular Biology Laboratory (EMBL)
- European Space Agency (ESA)
- European Organisation for Astronomical Research in the Southern Hemisphere (ESO)
- European Synchrotron Radiation Facility (ESRF)
- Institut Laue Langevin (ILL)

These organisations develop and operate some of the largest and most advanced research infrastructures in the world, enabling European scientists to perform world-leading research.

## Registration

Online registration at [www.embl.de/conferences/TTC09](http://www.embl.de/conferences/TTC09).

## Accommodation

Rooms are available at the ISG Hotel in nearby Boxberg for participants. Please contact the hotel directly with the keywords "Technology Transfer Conference" to book a room. [isg-hotel@embl.de](mailto:isg-hotel@embl.de)

## Social programme

Includes a Gala Dinner on Wednesday 18 November at the Palais Prinz Carl on Kornmarkt in Heidelberg.
