van Ouwerkerk, Antoinette	
Identification of functional variants associated with atrial fibrillation	328
van Zundert, Brigitte AJ	Presenter: Sanchez, Mario
Revealing different epigenetic profiles in memory-activated hippocampal neurons after context and contextual fear conditioning.	329
Vervoort, Stephin	
Discovery of novel regulators of transcriptional pause-release	330
Videira, Alexandre	
LncRNA PVT1 mediates in prostate cancer LNCaP cells the interaction between androgen receptor (AR) and Polycomb Repressive Complex 2 EZH2 Subunit in coordinating a transcriptional repression program	331
Vihervaara, Anniina	
Transcriptional memory to repeated stress	332
Villamil, Gabriel	
Trm140 installs 3-methylcytidine on tRNA arginine in <i>S. cerevisiae</i>	333
Villeret, Vincent	
Crystal structure of Human Mediator complex subunit MED23	334
Voigt, Philipp	
Nucleosomal Asymmetry Shapes Histone Mark Binding at Bivalent Domains	335
Wang, Jun	
Hypoxia-inducible factors regulation on iron metabolism in 6-OHDA treated astrocytes	336

Waymack, Rachel Shining light on the role of shadow enhancers in transcriptional noise	337
Whishant, Adam RNA-Mediated Shutoff of Host Gene Expression Induced by Herpes Simplex Virus Type 1	338
Whitchurch, Jonathan Functional studies on KAT6A in Mental Retardation Autosomal Dominant 32 syndrome (MRD32) using CRISPR-Cas9 genome editing	339
Wolf, Elmar MYC Controls Directionality and Processivity of Transcription by Recruiting SPT5 to RNA Polymerase II	340
Woodworth, Alex Understanding binding modalities of transcription factor RUNX1	341
Woringer, Maxime Investigation of the sequence determinants of c-Myc dynamics in mESC	342
Wosika, Victoria Quantitative single-cell transcription dynamics to investigate chromatin regulation of stress genes expression	343
Wyck, Sarah Oxidative Stress in Sperm Affects Reprogramming in Early Embryonic Development	344
Xu, Ke Temporospatial induction of homeodomain gene cut dictates natural lineage reprogramming	345
Yahia, Yousra RNA Polymerase II C Terminal Domain is largely dispensable for transcription in living cells	346
Yang, Lu The role of DNA methylation during haematopoiesis	347

Yang, Shen-hsi

Transcriptional regulators driving pluripotency exit

348

Yi, Jia

The role of an intragenic enhancer in regulating CD44's alternative splicing

349
